When the report was over, to a clarion bugle call, a congratulatory group of the Korean Young Pioneers Corps marched into the meeting hall, holding a portrait of Comrade Kim Il Sung, the fatherly Leader, singing loudly the "Song of General Kim Il Sung."

The meeting also adopted with unanimous approval a letter addressed to the South Korean youth and students.

The whole course of the meeting clearly showed the burning feeling of loyalty of the entire youth to Comrade Kim Il Sung, the great Leader of our Party and the Korean revolution, and once again vividly demonstrated the firm determination of the entire youth to learn solely from the Leader.

Letter of Pledge to Marshal KIM IL SUNG,

Respected and Beloved Leader of 40 Million Korean People

PYONGYANG, Apr. 13 (KCNA)—The National Meeting of Youth for General Mobilization, at its 3rd-day sitting, adopted amid stormy applause of the entire attendants a letter of pledge to Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

The letter of pledge said that the National Meeting of Youth for General Mobilization had a sincere discussion of militant tasks facing the youth and reaffirmed the revolutionary determination of the entire youth to struggle with the devotion of all energy of the youth as the guard detachment and death-defying corps defending the Party and the Leader with their own lives and carrying through the orders and instructions of the Leader to the end.

Overwhelmed with unbounded emotion and excitement over having a meeting in the presence of the great Leader of the 40 million Korean people whom they long to see and adore even in dreams, the attendants of the meeting extended warmest gratitude and highest glory from the bottom of their hearts to Marshal Kim Il Sung, the respected and beloved Leader, who arranged this significant meeting and showed parental care by attending it in person.

The letter of pledge further said:

Having received instructions from you, dear Marshal, who showed deep trust in us youth and called us in the fulfilment of weighty and glorious tasks, we are overflowing with infinite happiness of being soldiers of the Leader and burning determination to live up to the expectation of the Leader without fail.

There is no higher pride for us youth than enjoying the trust of the Leader and no greater honour than fulfilling the revolutionary cause of our Party.

At this moment when we look ahead to a decisive time of great revolutionary struggle for sweeping away the U.S. imperialist aggressors from this land once and for all and accomplishing the historic cause of the unification of the fatherland, the blood of loyalty is boiling and the fighting spirit of annihilating the enemy is surging in the hearts of us youth.

Pointing out that in Korea the manoeuvres of the U.S. imperialists for the provocation of a new war have already reached a grave stage and the situation has been created in which a war may break out again at any moment, the letter of pledge said that if the U.S. imperialists dare attempt a "retaliatory" action against us, that will in itself mean the start of a war.

It continued:

Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, met with attendants of the National Meeting of Youth for General Mobilization which was held in Pyongyang from Apr. 11 to 13.

We, who have always reported victories to the Leader, solemnly pledge to you, the respected and beloved Leader:

If the U.S. imperialist aggressors provoke another war in the end, we will sweep away from this land once and for all the U.S. imperialists, the heinous criminals, who have inflicted all kinds of calamities, misfortunes and sufferings upon our people through their bloody history of aggression of more than 100 years, and the sworn enemy of our nation who have been keeping our fatherland divided for over 20 years and have driven the South Korean people into a living hell of dire poverty and non-rights, and by pooling strength with the South Korean people, will unify the fatherland and bring the revolutionary ideas of the Leader into full blossom all over the land of 3,000 *ri*.

We are sure to win as long as we are guided by Marshal Kim Il Sung, the great Leader of the 40 million Korean people, peerless patriot, national hero, genius military strategist, ever-victorious, iron-willed genius commander and one of the outstanding leaders of the international communist movement and working-class movement.

For more than 40 years since you set out upon the revolution in your early years, dedicating yourself to revolution, you, dear Marshal, has led our people at the head of the Korean revolution, taking upon yourself the destiny of the fatherland and the nation, and beat Japanese imperialism and U.S. imperialism and has built up the great socialist power standing today firm in the East, which is called the fatherland of *Juche* and Chullima Korea.

We proudly declare at the top of our voice to the whole world that we are sons and daughters and soldiers of Marshal Kim Il Sung, the great Leader.

Since the very day when you embarked upon the road of revolution, you, dear Marshal, has put your heart and soul into rearing the younger generation into staunch revolutionaries, regarding the youth as the most vivacious and stout force in social revolutions.

It said that the Marshal has provided the youth with the most superior socialist system of our country freed for good from exploitation and oppression and ensured complete freedom of social and political activities and all conditions for the all-round efflorescence of their talent.

And it pointed out that the Leader founded after the Liberation the Democratic Youth League, the reserves of the Workers' Party of Korea which is the general staff of the Korean revolution, and reformed it into the League of Socialist Working Youth, communist mass organization, and has led it along the one road of victory and glory, concretely indicating the orientations and ways of struggle at each stage of the revolution.

The letter of pledge continued:

It is time when we repaid with greater, brilliant exploits of labour and battle the great love shown by you, dear Marshal, for us and your fathomless solicitude for us.

We are deeply conscious how heavy and glorious the tasks assigned to us youth at present are.

We solemnly pledge to you, respected and beloved Leader, to push through this instruction of you, dear Marshal, to the end, defying death.

We will rise up as one in making full preparations to meet the enemy and fight it for defending our glorious socialist fatherland, defending the revolutionary gains, the source of our happy, new life, which have been won by our sweat of blood and for realizing the desire for the liberation of South Korea and unification of the fatherland always burning in our hearts.

Holding aloft the teachings of the respected and beloved Leader on making more thorough preparations, political and ideological, to meet the great revolutionary event, we youth will more firmly arm ourselves with the revolutionary ideas, ideas of *Juche* of Marshal Kim Il Sung—the unitary ideology of our Party—which are great ideas leading the Korean revolution along a most straight path and guaranteeing its final victory and the ideas which have made a great contribution to the treasure-house of Marxism-Leninism theoretically and practically, and immortal ideas brightly illumining the road ahead of all the people who are fighting against imperialism and opportunism of all hues and for the victory of revolution, the letter of pledge said. It stressed:

We are deeply conscious that it is the essence of defending our revolution and guaranteeing its final victory and the first life of us youth to defend and protect Marshal Kim Il Sung, the great Leader.

We will become the true guard detachment and death-defying corps who are firmly armed with the great revolutionary ideas of the Marshal and remain boundlessly loyal to the Leader with single devotion, defend the Leader with our lives in any heavy storm and stress and push through the orders and instructions of the Leader to the end.

We will make the instructions of the Leader and the Party's policies our flesh and blood by making a deep-going study of them and will breathe and act with the Leader at any time and in any place and thoroughly establish the revolutionary morale of fulfilling the revolutionary duty without fail for the Leader, even if our flesh may be torn to shreds and ground to powder.

We do not know any other ideas than the revolutionary ideas of the Leader and we will fight relentlessly against all such unsound and counter-revolutionary ideological elements contradictory to them as Right and "Left" opportunism, flunkeyism, factionalism, parochialism, nepotism, bourgeois ideas and feudal Confucian ideas.

We will staunchly defend the glorious revolutionary traditions of the anti-Japanese armed struggle, the root of our Party and our revolution, established by the great Leader, and continue and develop them brilliantly generation after generation for ever.

The pledge stressed:

We will certainly make the U.S. imperialists, the sworn enemy of our people, pay with blood for the crimes they have committed and sweep away the scoundrels from this land for good and all within our generation, overthrow the traitorous Pak Jung Hi puppet clique, dual lackeys of the U.S. and Japanese imperialists, and relieve the South Korean brothers and sisters who are groaning in the dark world of exploitation and oppression and accomplish the cause of the unification of the fatherland, the supreme aspiration of the nation.

And the attendants of the meeting firmly pledged to the Marshal that they would fulfil the vanguard role of the youth in consolidating still more the defence posture of the whole State and whole people by accelerating economic construction and national defence upbuilding along the road indicated by the resolutions of the Conference of the Party and the great 10-point Political Programme, upholding with their whole heart the instructions of the Leader on further reinforcing the defences of the country as firm as an iron-wall in face of the U.S. imperialists' moves for the provocation of a new war of aggression, so that they can fight the enemy at any time.

The letter continued:

By widely organizing and waging the "Youth Vanguard Movement" initiated by the Leader, we will firmly build up the communist nuclear stronghold of youth within the League of Socialist Working Youth and will educate the entire youth and rally them rock-firm around the Party and the Leader.

We will further strengthen our organizational tempering and ideological training, taking part more faithfully in the organizational life of the League of Socialist Working Youth, and thus steadily revolutionize, working-class-ize and communize ourselves.

The letter of pledge wrote in conclusion:

We firmly believe that we will accomplish without fail the nation-wide victory of the revolution and the day will surely come when the 40 million Korean people will enjoy infinite prosperity and happiness in a unified fatherland under the guidance of the respected and beloved Leader, as long as there is the great Leader who has led the Korean revolution along the one road of victory for over 40 years and brought us today's prosperity and happiness.

Long live Marshal Kim Il Sung, the great Leader of the 40 million Korean people!

Report by Chairman of C.C. of LSWY at National Meeting of Youth for General Mobilization

PYONGYANG, Apr. 12 (KCNA)—Comrade Oh Ki Chun, Chairman of the Central Committee of the League of Socialist Working Youth, delivered a report "Let us entire youth become a guard detachment and death-defying corps in defending the Party and the Leader with our lives and implementing the orders and instructions of the Leader, for the unification of the fatherland and the revolution" at the National Meeting of Youth for General Mobilization which opened yesterday in Pyongyang.

Saying in the beginning that our people and youth are confronted with the task of achieving at an early date the unification of the North and South of the fatherland by expediting socialist construction at the maximum in the northern half of the Republic and, at the same time, actively assisting the South Korean people in the anti-U.S., national salvation struggle so that they can overthrow the U.S. imperialists and their stooge traitorous Pak Jung Hi clique and complete the South Korean revolution, the reporter stressed: We can not stop the struggle as long as the U.S. imperialists, the sworn enemy of our people, remain in our fatherland, the reactionary bureaucratic group of pro-U.S. and pro-Japanese lackeys are entrenched in South Korea as ever and the Japanese militarists, revived, are staging a comeback there.

Recalling that the new war provocation manoeuvres of the U.S. imperialists have been all the more intensified following the incident of the seizure of the armed spy ship "Pueblo" infiltrated deep into the territorial waters of our country by the U.S. imperialists to perpetrate hostile acts, the reporter noted: Owing to the intensified aggressive machinations of the U.S. imperialists, the situation has been extremely strained and such a state of affairs has been created, in which a war may break out again at any moment.

Declaring that if the U.S. imperialists dare attempt any "retaliatory" act against us, it means nothing but the start of a war, the reporter recalled the following words of Comrade Kim Il Sung, the respected and beloved Leader: **"If the U.S. imperialists continue to try to solve this matter by means of threat and blackmail by mobilizing their armed forces, they will get nothing therefrom.**

If there is anything it will be only corpses and death.

We do not want war, but are never afraid of it. Our people and People's Army will return retaliation for the 'retaliation' of the U.S. imperialists, all-out war for all-out war."

The whole Party and the entire people are rallied rock-firm with one ideology and will around Comrade Kim Il Sung, the respected and beloved Leader, and are filled with the determination to be mobilized all in a sacred war for crushing the enemy, once called by the Leader, the reporter stressed, and said:

The wise leadership of Comrade Kim Il Sung, the great Leader, the infinite loyalty of our people to the Leader and their surging revolutionary zeal, the granite-firm political and ideological unity and solidarity of the entire people—this is the source of our invincible might. Thanks to very this, we will surely win

Noting that with the thorough embodiment of Comrade Kim Il Sung's great ideas of *Juche* and revolutionary line of independence, self-sustenance and self-defence our country has turned into a mighty socialist country independent in politics, self-sustaining in economy and self-defensive in national defence.

Attendants of the National Meeting of Youth for General Mobilization and Young Pioneer congratulatory group warmly greeting the meeting

If the U.S. imperialist aggressors and their stooge Pak Jung Hi puppet clique dare ignite a new war, it will become for us a war for the defence of the fatherland for safeguarding our fatherland, restored by the anti-Japanese revolutionary fighters at the cost of their blood under the leadership of Comrade Kim Il Sung, the great Leader, the beloved socialist fatherland which our people defended with their lives and brought into bloom with their sweat, and the revolutionary gains.

It will become also a righteous liberation war for rescuing the South Korean people who are groaning in the dark land under the sway of exploitation and oppression by making a clean sweep of the U.S. imperialist aggressors from the fatherland and achieving the unification of the fatherland so ardently aspired after by the whole nation and bringing the day when the 40 million Korean people will live happily together in the great bosom of Comrade Kim Il Sung, the respected and beloved Leader.

Recently the respected and beloved Leader gave earnest instructions on raising the flames of the grand Chullima march on all fronts of socialist construction and sharply boosting production to further increase the military and economic might of the country in view of the ever intensified new aggressive war provocation manoeuvres of the U.S. imperialists and called the whole Party and the entire people to the struggle for further consolidating the material foundation of the revolutionary base and, at the same time, making war preparations more successfully, the reporter said. He stressed that holding high the instructions of the Leader and according to the resolutions of the historic Conference of the Party and the line put forth in the great 10-point Political Programme of Comrade Kim Il Sung, we should consolidate our revolutionary base into a more powerful one and further strengthen the defence capabilities of the country and make thorough preparations for war in all domains.

The reporter continued:

The current meeting is of great significance in solidly confirming the revolutionary determination of the entire youth to fight against the enemy to the end and mobilizing all of them in the struggle for raising higher the flames of the great revolutionary upsurge and making full material and military preparations in a better way, standing in the van on all fronts and in all domains of socialist construction, at this tense moment when the new war provocation manoeuvres of the U.S. imperialists have become still more unscrupulous.

The meeting will be greatly conducive to leading the entire youth to perform the lofty mission as the guard detachment and death-defying corps in defending the Party and the Leader with their lives and implementing the orders and instructions of the Party and the Leader to the end, for the unification of the fatherland and the revolution.

It is the greatest honour of the entire Korean people and youth and the great pride of the nation to live, having as the Leader Comrade Kim Il Sung, the great sun of our people and one of the outstanding leaders of the world revolution.

The Workers' Party of Korea was founded under the very difficult and complex circumstances following the Liberation and today in our country a most superior socialist system, after which our people so ardently aspired for a long time, and, solely for which numerous Korean Communists fought shedding their blood, has been firmly established and the solid foundation of an independent national economy laid and a nation-wide defence system has been firmly set up thanks to the great ideas of *Juche* and the wise leadership of Comrade Kim Il Sung, the reporter pointed out, and emphasized:

Indeed, the strengthening and development of our Party as we see today, the invincible might of the socialist system of our country, the free and happy life of our people and youth and the ultimate victory of the Korean revolution are all unthinkable apart from the outstanding leadership of Comrade Kim Il Sung, the respected and beloved Leader, who has accumulated rich experiences in the storm of the revolution for a long time, given the ground to the glorious revolutionary traditions to strike deep roots in this land by hewing the path ahead of the arduous Korean revolution, taking upon himself the destiny of the fatherland and the nation and opened an infinitely prospering, flourishing and developing great era of the Workers' Party.

Today, firmly convinced through their actual experience in life that the final victory of our revolution can be won only by our Party guided by Comrade Kim Il Sung, the respected and beloved Leader, our people and youth entirely entrust all their destinies wholly to Comrade Kim Il Sung and are vigorously marching ahead toward a bright future, filled always with confidence in victory and an indomitable fighting spirit.

Saying that all freedom and happiness, worthy life full of hope and joy, which our youth are enjoying today under the socialist system, are the brilliant materialization of the far-reaching plan of Comrade Kim Il Sung for a broad prospect of the Korean revolution, and the fruit borne of his paternal solicitude for the new generations of the revolution and his virtues, the reporter pointed in detail to the fact that the Leader who personally hewed the path of the Korean revolution at dawn opened an original and independent road for the Korean revolution and youth movement to follow, as the great Leader of the Korean communist movement and the Korean youth movement already in the first days of his revolutionary activities.

The Leader organized "T.D. (Down-with-Imperialist Union)," an illegal organization, and later organized and guided such revolutionary youth, children's and students' organizations as the "Sainal Children's Union," "Anti-Imperialist Youth Union," "Young Communist Union," "Children's Vanguard," sowing the flaming seed of revolution among the youth and children and rousing them to the revolutionary struggle.

As the Leader brought into maturity the great conception for the restoration of the fatherland and illumined the road ahead of the youth and children of our country, who would succeed the generation of the revolution, at that time, the youth and children of our country who were homeless and were writhing under the tyranny and maltreatment of the Japanese imperialists could re-

suscitate with the light of revolution in their hearts and numerous sons and daughters of the unpropertied could rise up with arms in their hands in the glorious anti-Japanese armed struggle for achieving the restoration of the fatherland, looking up to the Leader.

In the darkest period of the Japanese imperialist rule, Comrade Kim Il Sung brought the revolutionary movement of our country on to a new, high stage by putting forth the correct line of armed struggle by summing up the experiences and lessons of all the preceding revolutionary movement in an overall way from the stand of Marxism-Leninism and *Juche* and thereby ushered in a great, new era of revolution which brought about an epochal turn in the development of the national liberation struggle and communist movement of our country.

Comrade Kim Il Sung, the great Leader of the Korean revolution and outstanding organizer and Leader of the Korean youth movement, explored with originality the road to be followed by the communist youth movement of our country on the basis of Marxism Leninism and creatively embodied and developed a wealth of experiences accumulated in the whole course of personally organizing and leading it in conformity with the strategic line of the anti Japanese armed struggle and the demand of the revolutionary situation at that time.

Especially, the Leader analysed in a clear sighted way the great significance of the work of expanding and strengthening the reserve forces of revolution in realizing the strategic line of the anti Japanese armed struggle and illumined the path to be followed by the youth work in the period of the anti-Japanese armed struggle, saying: **"...We must not forget at any time that an army which has not prepared reserve forces surely meets a failure. The anti-Japanese national liberation struggle at the present stage demands an armed struggle and the anti-Japanese armed struggle demands a direct participation of broad masses of youth."**

Contained in these words of the Leader are his great conception for leading the anti Japanese armed struggle to victory and winning the final victory of the Korean revolution by building up and uniting the strength of the youth and constantly expanding and strengthening the revolutionary forces and reserve forces and his original and profound idea on the development of the youth movement.

The Leader personally organized and guided the Young Communist Corps and Children's Corps in the guerrilla units and the guerrilla bases, the enemy ruled areas and all other parts, steadily reinforced and strengthened the anti Japanese armed units with young fighters trained and tempered there and organized and mobilized them to the anti Japanese national liberation struggle.

Thanks to the outstanding leadership of the great Leader who led the arduous yet glorious anti Japanese armed struggle to victory, the Korean communist youth movement has traversed an independent and original path and the proud traditions have been established.

Comrade Kim Il Sung, the respected and beloved Leader, said: **"The anti-Japanese armed struggle not only brought the national liberation movement and the communist movement in our country to a new stage, but also built up a most brilliant tradition for our youth movement."**

Such rich experiences of the youth movement as the experience of implementing the class line and mass line in the youth work, the experience of work of the youth united front and work with the youth of all strata, the experience of the struggle for defending the unity and cohesion of the youth movement, the experience of the mass work among the youth and children, the experience of the work of political and ideological education among the youth and children, the experience of the work with students and children, the experience of the youth work in the revolutionary army, the experience of combining the legal activity and illegal activity in the enemy ruled areas and the work method and style of those working among the youth, which were established in the period of the anti-Japanese armed struggle, became the deep root of the Korean youth movement.

Comrade Kim Il Sung not only united organizationally broad sections of youth and children in our country into revolutionary organizations but also paid particular attention to bringing them up as ardent revolutionaries and iron willed fighters in the revolutionary struggle.

Comrade Kim Il Sung, the respected and beloved Leader, who personally established the brilliant revolutionary traditions of our Party and nurtured the deep root of the Korean youth movement in the arduous and protracted years of the glorious anti-Japanese armed struggle, indicated the road ahead of the Korean youth movement right after the Liberation, and sent personally young fighters educated and trained by him in the flames of the anti-Japanese armed struggle to the youth organization, thus firmly building up its backbone.

Comrade Kim Il Sung formulated a correct organizational line on founding the Democratic Youth League as a mass youth organization and developing it on the basis of a scientific analysis of the revolutionary situation prevailing in our country right after the Liberation and the social and political composition of youth.

A mass form of organization uniting not only the communist youth but youth of various strata was needed for firmly winning the masses of youth over to the side of the revolution and ensuring the unity and solidarity of the ranks of youth.

Comrade Kim Il Sung put forth the line on founding the Democratic Youth League embracing broad sections of youth with the working youth as the core, organized and guided it in person, educated and remoulded the youth through the organizational life and practical struggle, thereby leading all youth to the upbuilding of a new fatherland.

Thus, the Democratic Youth League speedily grew and strengthened as a mass organization enlisting youth of various strata in a short span of time.

Along with the deepening and development of the socialist revolution and socialist construction in an all-round way in our country, the Leader reorganized the Democratic Youth League into the League of Socialist Working Youth, a communist mass organization, in conformity with the great changes in the material life and the political and ideological life of the youth and the demand of the development of the youth movement, and showed all kinds of solicitude for its strengthening and development.

As there is Comrade Kim Il Sung with unprecedented, rich experience in the guidance of the youth movement, experienced and tested leadership and immortal resources, today the Korean youth movement is vigorously advancing along an independent and original road and has become a model for the world youth movement.

In this way Comrade Kim Il Sung, the respected and beloved Leader, not only firmly laid the cornerstone of the Korean youth movement and has led it to victory but has given the genuine right to learning to the sons and daughters of the millions of the unpropertied who could not learn for thousands of years in the past, under the colonial rule of Japanese imperialism in particular, by abolishing the colonial enslavement education system of Japanese imperialism and establishing a new popular education system.

Pointing to the great solicitude directed by the Leader to the education of the youth and children in the difficulties in the early days of national construction and in the grim days of the war when a decisive struggle was waged against U.S. imperialism, the reporter said:

The Leader enforced in succession the compulsory primary education system and compulsory middle school education system in our country the education of the rising generations in the arduous period when all were pushing ahead with rehabilitation and construction, tightening their belts, and made it possible to announce to the whole world the enforcement of the nine-year universal compulsory technical education system last year when great efforts should be directed both to economic construction and defence upbuilding.

Thus, today the youth and children of our country are reliably growing up as men of a new communist type, well prepared mentally, morally and physically and today the sons and daughters of workers and peasants who groaned in the past under exploitation and oppression are undertaking and performing an important role at the posts of socialist construction and defence of the fatherland as proud national cadres, social and political figures, able scientists and technicians and competent military commanders.

Particularly, Comrade Kim Il Sung has shown love, warmer than real fathers, to bring up the bereaved sons and daughters of revolutionary martyrs who laid down their lives in the bloody struggle for the restoration of the fatherland and the unification and independence of the fatherland into the pivots who will succeed the generation of our revolution.

No sooner had he triumphantly returned to the fatherland after restoring it than the Leader set up the Mangyungdai Revolution School to bring up the bereaved sons and daughters of the anti-Japanese revolutionary martyrs as fine national cadres of the country and reliable successors to the revolution.

In the period of the fierce Patriotic War of Liberation, too, the Leader sent the sons and daughters of martyrs who were sacrificed in bloody struggle and war orphans to the revolution schools and bereaved children's schools and brought them up as pillars of the future.

All the solicitude directed by Comrade Kim Il Sung to the Mangyungdai Revolution School and many other revolution schools are associated with the boundlessly lofty will of Comrade Kim Il Sung to realise the aspiration of the revolutionaries who were convinced that even if they were sacrificed in the fight, their children would grow up in the bosom of the Leader and carry to completion the revolutionary cause unaccomplished by them by succeeding their generation.

The reporter went on to say:

Comrade Kim Il Sung, the respected and beloved Leader, is always among the youth wherever he goes—furnaces, underground pits, wharfs and tree felling sites, construction sites and cooperative fields—and shows profound solicitude to them and encourages and inspires their struggle.

Especially, Comrade Kim Il Sung, the great Leader, takes infinitely deep care of, loves and directs particular solicitude to the sentinels standing guard over the defence line of the fatherland as firm as an iron-wall.

On the foremost front under the shower of bombs, in the trenches in raging flame, on the heights enveloped in powder smoke and in the subterranean positions, Comrade Supreme Commander was always with the soldiers and led them to immortal exploits.

The combatants of our People's Army who grew up into steel-strong soldiers under the outstanding leadership and infinite solicitude of the Leader safeguarded at the cost of blood every inch of the soil of the fatherland by displaying matchless courage and self-sacrificing spirit in the past Patriotic War of Liberation and today they are defending the defence line of the fatherland as firm as an iron-wall, having grown into an army of cadres, each a match for a hundred foes, upholding the line of the Party on training the whole army into an army of cadres and modernizing the whole army.

Stressing that it has become an unshakable tradition for our youth, who were born in the era of revolution and have devotedly fought for the revolution and construction, to be loyal to the Leader, the reporter went on to say:

The anti-Japanese guerrillas and the Young Communist Corps members who were keenly aware that without the guidance of Comrade Kim Il Sung not a single battle could be fought victoriously in the life-and-death struggle against the ferocious and vicious Japanese imperialists fought rallied close around Comrade Kim Il Sung, looking up to him standing in the van of the revolution as the national hero and great Leader during the 15-year-long arduous anti-Japanese armed struggle.

The wise leadership of Comrade Kim Il Sung and the boundless loyalty of the anti-Japanese gurrillas and the Young Communist Corps members to the Leader became the source of the invincible strength and the decisive guarantee for the victory in the anti-Japanese armed struggle.

Our youth who have carried forward the brilliant revolutionary traditions of the glorious anti-Japanese armed struggle, upholding all the revolutionary lines mapped out by the Leader, fought like a phoenix in the van of the struggle for pushing them through, rallied close around the Leader on the road of the arduous revolutionary struggle after the Liberation.

Our youth displayed to the full their infinite loyalty to the Party and the Leader also in the vigorous struggle of frustrating the incessant subversive and destructive machinations of the class enemies at home and abroad and establishing and consolidating the people's regime and enforcing land reform and other democratic reforms and in the full-

significant struggle of rehabilitating the damaged national economy and building a new fatherland after the Liberation.

In particular, the loyalty of our youth to the Leader was manifested most strikingly during the great Patriotic War of Liberation of our people against the armed invasion of the enemy, the U.S. imperialists, and their stooges.

All our youth, men and women, who were educated by the Leader and carried forward the revolutionary traditions of the anti-Japanese armed struggle, valiantly rose up and went to the front vying with each other, holding rifles in stead of sickles, hammers or pens, upholding the call of the Leader that **"All Koreans who hold dear the honour of the fatherland and destiny of the nation, whoever they may be, should come out as one in the sacred war for the liberation of the fatherland against the aggression by the U.S. imperialists."**

Referring to the situation right after the war when the whole country was reduced to debris and the economy was totally destroyed and the people's living was very difficult, owing to the war, the reporter said:

Comrade Kim Il Sung opened a road of prosperity and development before our Party and people by putting forth with a deep penetration into the situation created in our country after the war and the prospect of our revolution the great line of giving priority to the growth of heavy industry while developing light industry and agriculture.

The reporter went on:

Comrade Kim Il Sung put forth the original line of economic construction and set forth the motto "Let us advance in the saddle of Chullima!" for its implementation and called in person at the Kangsun Steel Works and enkindled a fierce flame in the heart of every steel worker thus marking the beginning of the great Chullima movement, and lead our people to continued innovation and continued advance with a scientific foresight and an extraordinary revolutionary sweep.

Engraving deep on their hearts the teachings of the Leader that **"What is the pride of our youth? It is that the youth always undertake more difficult and arduous and more important points and always break through valiantly and boldly,"** our resourceful and valorous youth made brilliant labour exploits, proceeding on a large scale to the most difficult and important fields of socialist construction.

The League of Socialist Working Youth, the militant reserves of the Party, and the ranks of the youth are firmly prepared as an invincible revolutionary detachment rallied rock-firm around the Party and the Leader and replete with the system of the unitary ideology of the Party.

The South Korean youth and students, under the fascist oppression of the U.S. imperialists and the traitorous Pak Jung Hi puppet clique, are fighting valiantly for the glorious day when they will live in the bosom of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, looking up to him and gaining strength and conviction of certain victors from him, who always shows concern for their lot and illumines their road of struggle.

The Korean youth and students in Japan, pushing aside national persecution and suppression by the Japanese militarists, are waging an unflinching struggle for democratic, national rights including the right to repatriation to the Democratic People's Republic of Korea—the glorious fatherland—and the right to democratic, national education and for the independent unification of the fatherland, looking up to the great Leader.

It is entirely thanks to the wise leadership and paternal solicitude of Comrade Kim Il Sung, the great Leader of our people, that the youths of our country have traversed generation after generation the road of brilliant victories indicated by the great Leader and have the great joy and pride of having grown as true revolutionary fighters of the Leader to carry forward the revolutionary cause of the Party, and the future of the Korean youth movement and the Korean youth will shine brilliantly only when they advance under the leadership of Comrade Kim Il Sung, the great Leader, also in time to come.

The reporter extended again, in the name of the entire Korean youth, deepest thanks and highest glory to Comrade Kim Il Sung, the great Leader of the 40 million Korean people,who has led our revolution and youth movement to victory and glory and always shows benevolent and warm love and solicitude to our young generation.

The reporter went on:

The situation obtaining in our country today demands the entire people and youth to keep utmost revolutinary vigilance and strained posture and keenly watch every move of the enemy and make more thoroughgoing moral and material preparations to crush the enemy at one stroke, if he dare pounce upon us.

Setting forth militant tasks before the officers and men of our People's Army and people at the current acute situation, Comrade Kim Il Sung taught us: **"All the officers and men of the People's Army, Red Worker-Peasant Militiamen and the entire people should further heighten revolutionary vigilance against the aggressive machinations and possible war provocation by the U.S. imperialists and firmly guard their posts in a mobilized posture at all times. In all domains and at all units the military might of the country should be further strengthened and full combat preparations be made so that the aggressors can be crushed at one stroke if they recklessly pounce upon us."**

The entire youth, unanimously responding to the call of the Party and the Leader, should be mobilized as one in preparing to meet and fight the enemy for safeguarding our glorious socialist fatherland, for defending the revolutionary gains, the source of our new happy life, created by the sweat of the brow of our people and for realizing the desire for the liberation of South Korea and unification of the fatherland always burning in our minds. Thus, all of them should fulfil more successfully their weighty tasks as the guard detachment and death defying corps defending the Party and the Leader with their lives and fulfilling the orders and instructions of the Leader to the end.

Referring to tasks confronting our youth, the reporter said that the most important task is to further solidly prepare themselves politically and ideologically in face of possible war.

In order to make thoroughly political and ideological preparation the system of unitary ideology of the Party must be established more firmly, he said, and went on:

The unitary ideology of our Party —it is the revolutionary ideas of Comrade Kim Il Sung, the great Leader of our Party and the Korean revolution.

The revolutionary ideas of Comrade Kim Il Sung, as great Marxist-Leninist ideas, brightly illumine the road ahead of the struggle of the peoples fighting against imperialism and opportunism of all hues and for the victory of the revolution.

To protect and defend the Leader is the essence of defending our revolution and guaranteeing its final victory.

"Let us become the guard detachment and death-defying corps in defending the Party and the Leader with our lives and pushing through the orders and instructions of the Leader, for the unification of the fatherland and the revolution!"—this is the first and foremost militant slogan of our youth.

We should firmly arm ourselves with the revolutionary ideas of the Leader to give a lustre to this glorious title of guard detachment and death-defying corps defending the Leader with our own lives and carrying through his order and instructions to the end.

The youth should thoroughly establish the system of unitary ideology of the Party knowing no other ideas than the revolutionary ideas of Comrade Kim Il Sung, and defending and implementing unconditionally the orders and instructions of the Leader.

Underlining the necessity of fighting a relentless struggle against Right and "Left" opportunism and residue of flunkeyism, bourgeois ideas and feudal Confucian ideas contradictory to the revolutionary ideas of Comrade Kim Il Sung, the unitary ideas of the Party, the reporter declared: To defend the unity and solidarity of the Party means to defend Comrade Kim Il Sung, the great Leader of our Party and revolution, and this is the decisive guarantee for the victory of our revolution.

He pointed out that to deeply study and grasp the glorious revolutionary traditions of our Party which were established in the flames of the anti-Japanese armed struggle under the leadership of Comrade Kim Il Sung and have been steadily consolidated and developed in the course of an arduous struggle after the Liberation, and to inherit and develop them are to arm ourselves with the great revolutionary ideas of Comrade Kim Il Sung and embody them in our work and life and, to defend the revolutionary traditions is, in itself, to defend the revolutionary ideas of Comrade Kim Il Sung and defend the Leader The youth, by making profound study of the revolutionary traditions, should deeply grasp and thoroughly embody in practical life the boundless loyalty of the anti-Japanese guerrillas to the Leader, their lofty revolutionary spirit of defending the Leader of the revolution, politically and ideologically, and defending him with their own lives, their burning loya.ty of accepting the orders of the Leader unconditionally and pushing them through, defying death, and their staunch revolutionary spirit of uncompromising struggle against tendencies contradictory to the revolutionary ideas of the Leader.

The reporter continued:

To make thorough ideological preparations for routing the U.S. imperialists,we should arm ourselves more firmly than ever before with the spirit of warm love for the socialist system of our country and the spirit of burning hatred for the U.S. imperialist aggressors and thoroughly arm ourselves with the ideas of liberating South Korea by assisting the South Korean people in their struggle.

Comrade Kim Il Sung said:

"Our revolution has not come to completion and we have not yet liberated the South Korean people. We must hate the U.S. imperialists, the inveterate enemy of the entire Korean people, and must not forget even a moment the South Korean people going in rags and hungry under the exploitation and oppression by these villains."

U.S. imperialism, is historically, an inveterate enemy of the Korean people and, at the same time, the biggest obstacle to our revolution and the first target of our struggle today.

We must certainly make the U.S. imperialists pay with blood for the untold crimes they have committed in the soil of Korea and liberate South Korea by assisting the South Korean people in struggle and unify the fatherland.

The U.S. imperialists are two-legged wolves dyed to the very marrow in their bones with the man-hating ideas looking down upon the Korean people and the bestiality of human butchery.

It is revisionism to harbour illusion as to U.S. imperialism.

There is no other way of achieving the unification of the fatherland than beating the U.S. imperialist aggressors and driving the scoundrels out of the southern land.

Stressing that in order to relieve the South Korean brothers, we must drive out the U.S. imperialists and at the same time overthrow the traitorous Pak Jung Hi puppet clique, the reporter remarked: The youth must fight more stubbornly to firmly defend the socialist regime which has brought our people all freedom and happy new life, overthrow the traitorous Pak Jung Hi puppet clique and enable the South Korean people and youth also to become the proud masters of the regime and live together, envying no others, in a unified fatherland and under the respected and beloved Leader of the 40 million Korean people.

Declaring that under the prevailing situation, we must make more firmly the political and ideological preparations and, at the same time, still more consolidate as firm as an iron-wall the defence capacity of the country so that we can fight the enemy at any time, in view of the new aggressive war provocation of the U.S. imperialists, the reporter referred in detail to the tasks confronting the youth in the People's Army and the tasks put before the youth for placing the entire people under arms and turning the whole country into a fortress.

The reporter stressed that in case of emergency, the entire youth should valiantly turn out, holding arms in their hands, to a sacred war for smashing the enemy, the U.S. imperialists, and liberating the southern half and fully display a high degree of courage and self-sacrificing spirit in the fight against the enemy.

Then the reporter touched upon the tasks of the youth in further strengthening the material forces by giving further impetus to the great revolutionary upsurge on all fronts of socialist construction and accelerating production and construction.

The struggle for accelerating economic construction, this is a struggle for smashing the new war provocation manoeuvres of the U.S. imperialist aggressors, building up our revolutionary base into a mightier one and actively meeting the great revolutionary event, and a sacred struggle for bringing earlier the unification of the fatherland and the

Frontal view of the Central Meeting to Celebrate the 56th Birthday of Marshal Kim Il Sung, the Respected and Beloved Leader of the 40 Million Korean People held on Apr. 14, in Tokyo

Referring in details to the revolutionary family of Marshal Kim Il Sung, the revolutionary activities at his early age, the great road of revolution he traversed since then, his glorious exploits, his great virtues and wise leadership and to his fatherly solicitude to the compatriots in Japan, the reporter stressed:

Marshal Kim Il Sung, the respected and beloved Leader, has persistently and single-heartedly devoted his all to the struggle for independence and prosperity of the fatherland, freedom and honour of the Korean people, victory of the cause of socialism and communism in Korea and for development of the international revolutionary movement. And he has always led the Korean people to victory and glory, happiness and prosperity.

Apart from the wise and outstanding guidance of Marshal Kim Il Sung, unthinkable are the liberation of the fatherland from the Japanese imperialist colonial rule, the founding of the Workers' Party of Korea, the general staff of the Korean revolution, the founding and development of the Republic, the banner of freedom and happiness for the Korean people, the hope-filled life of compatriots in the fatherland and here in Japan as well as final victory for the Korean revolution and future prosperity of the country.

Marshal Kim Il Sung is shining bright as the sun of our nation for his great revolutionary struggles and outstanding leadership and his undying exploits. He is also enjoying deepest trust and reverence from the progressive people the world over as one of the greatest leaders at our age for his brilliant contribution to the international communist and working-class movements and the anti-imperialist struggle for national liberation.

Chairman went on to say:

There is no higher honour, more exuberant happiness nor greater national pride for us than having as our leader such an outstanding Leader as Marshal Kim Il Sung.

Together with the people in the fatherland, the entire 600,000 Korean citizens in Japan will advance with single-hearted devotion along the road indicated by Marshal Kim Il Sung, united rock-firm around the respected and beloved Leader.

We are well aware through experience that only victory and glory are in store for us when we advance under the correct leadership of Marshal Kim Il Sung.

The entire Korean citizens in Japan will, in future, too, as in the past, entrust their destiny to the Leader and remain loyal to the Leader to the end.

Referring to immediate tasks confronting CHONGRYUN workers and compatriots in Japan, the reporter said:

CHONGRYUN workers and compatriots in Japan should firmly establish the unitary ideological system of the Leader—acting and thinking as told by the Leader, and knowing no other ideas than the revolutionary ideas of the Leader. By so doing, in any adversity and storm they should defend at the cost of their own lives the respected and beloved Leader, sharing their fate with him and making his teachings their flesh and blood.

The meeting adopted amid warmest applause a letter of greetings addressed from CHONGRYUN Central Standing Committee to Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

After the meeting, the attendants saw documentary "Mangyungdal" and other films from the fatherland.

final victory of our revolution.

The reporter, in the name of the Central Committee of the League of Socialist Working Youth, called upon the entire youth to decisively smash the new war provocation manoeuvres of the U.S. imperialists and fulfil their militant assignments for this year before the 20th anniversary of the founding of the Republic through an extensive struggle for each doing two persons', three persons' work in production with the raging flames of the grand Chullima march in active response to the call of the Party.

The reporter referred in detail to the necessity of implementing the following instructions of Camrade Kim Il Sung: **"...Full of youthful vigor and courageous, the youth represent a great force on the labour front for the building of a new society."**

"...As a shock-brigade in socialist construction, the youth should always take the lead in arduous and difficult work and work with all their energy and talent in industry, agriculture and all other fields of the people's economy."

The reporter said: The youth should not only take the lead in difficult and arduous work in all domains of the people's economy but actively participate in the labour struggle for the construction of important objects needed for economy and national defence, thereby playing the role of the shock-brigade with success, and the school youth, young scientists, technicians, office employees and young teachers should fully display their wisdom and energy in the full-significant labour struggle for the great upsurge in socialist construction.

In order to successfully step up economic construction and defence upbuilding, the reporter stressed, the youth in all domains of the people's economy should vigorously wage the technical innovation movement, unfold in a big way a movement for multiplying machine tools in the same spirit and the same stamina with which they begot more than 13,000 machine tools outside the plan in only one year in the past and produce more with less materials and low materials and secure sufficient reserves of materials needed for a war by intensifying the economization struggle.

Recalling the teachings of Comrade Kim Il Sung **"If we produce much grain, guns, tanks and planes as well as the ideas of socialist patriotism will come therefrom, to say nothing of the solution of the food problem"**, the reporter said that the youth in the countryside should wage an energetic struggle to put out more grain and other farm products and increase per-hectre grain output by 500kg this year by continuously consolidating the successes made in production last year, upholding the slogan that increased grain production is in itself war preparation.

After pointing out that the entire youth should show a communist approach toward labour and the revolutionary spirit of self-reliance and smash all the outdated ideas hampering our advance, the reporter pointed to the tasks confronting our school youth.

The school youth should steadily strive to firmly arm themselves with the unitary ideology of the Party, thoroughly establish *Juche* in study and scientific research and acquire living knowledge and technique useful in the revolution and construction of our country so as to prepare themselves, first of all, as Korean revolutionaries and Korean Communists.

Declaring that heavy yet glorious is, indeed, the militant task assigned today to the youth as the guard detachment and death-defying corps defending with their lives the Party and the Leader and carrying through to the end the orders and instructions of the Leader for the unification of the fatherland and the revolution, the reporter pointed to the tasks for strengthening in every way the militant power of the League of Socialist Working Youth to carry out with success all the militant tasks confronting the youth today.

Special attention must be directed to rearing and training all youth as true revolutionary soldiers of the Leader, who have the indomitable revolutionary spirit and staunch will of resolutely opposing and rejecting bourgeois pacifism, revisionist ideas and all other counter-revolutionary ideological trends and going in for revolution and struggle as become youth living in the era of revolutionary storm, the era of struggle, dauntlessly fighting, not afraid of the gallows, scaffolds and prison bars but firmly upholding revolutionary constance and not staining their political life even though they may lose their physical life, the reporter stressed.

The reporter said in conclusion:

Today our revolution under the wise leadership of Comrade Kim Il Sung is victoriously advancing and the great revolutionary event of the unification of the fatherland is coming nearer and nearer. Pointed out by Comrade Kim Il Sung, **"Imperialism appears to be strong, but it is something like a castle on the sand and its collapse is inevitable. This was the case with the Hitlerites and the Japanese imperialists in the past. At present the U.S. imperialists boast of 'mightiest' in the world and make a show of power, but they, too, are doomed."**

In view of all this situation, it is evident that if the enemy dare pounce upon us recklessly, the U.S. imperialists will decisively be defeated in Korea and we will certainly win victory.

On behalf of the entire youth of our country, I solemnly report to the Leader that the entire youth are fully prepared to crush the enemy at one stroke, once ordered by the Leader, holding high the bayonets handed down by the anti-Japanese revolutionary fighters, and to accomplish the lofty revolutionary cause to the end the anti-Japanese fighters started under the leadership of Comrade Kim Il Sung, the great Leader, flying the red banner of revolution in the deep forests of Mt. Paikdoo.
